

GREENWAVE ENERGY Green Gas

2024 PROSPECTIVE CARBON OFFSET CONTENT LABEL

This carbon offset content label explains information about the greenhouse gas emissions reductions you are purchasing through Greenwave Energy Green Gas. It is a simple, transparent way for you to be certain your purchase is resulting in real environmental benefits.

Project Type	Project Certification	Project Location	% of Product
Wind Energy Industries	VERRA	Beijing, China	100%
The emissions reductions supplied were created in:			2014

The Carbon Offset Content Label represents the mix of offsets we have contracted to provide. Actual percentages of GHG emissions reductions may vary by a small amount. In the case of significant variance, Greenwave Energy is obligated to provide you with more accurate historical disclosure.

Emissions burned as fuel are determined by multiplying therm usage by the carbon equivalent rate of 0.0053 metric tons CO₂ (Source: U.S. EPA) <https://www.epa.gov/energy/greenhouse-gas-equivalencies-calculator>

Visit <http://www.greenwaveenergy.com> for a list of carbon offset projects.
